

TSHEPANG OAGENG

IT SERVICE DESK OPERATOR

Dedicated and results-driven IT Service Desk Operator with strong interpersonal, communication, and problem-solving skills. Proven ability to work independently and within a team to resolve technical issues efficiently. Committed to improving customer satisfaction by delivering professional, high-quality support under pressure. Skilled in root cause analysis and delivering long-term solutions to recurring IT issues.

EXPERIENCE

IT SERVICE DESK OPERATOR | FIRST-LINE SUPPORT

Shoprite

2023 - Present

- Provide first-line technical support by diagnosing and resolving hardware, software, application, network, and peripheral device issues via phone, email, and ITSM ticketing systems.
- Install, configure, troubleshoot, and patch software remotely, including performing BigFix patch management to maintain system security and compliance.
- Troubleshoot and support retail IT equipment, including POS systems, handheld scanners, printers, payment devices, and user access-related incidents.
- Log, prioritise, manage, and resolve incidents and service requests within agreed Service Level Agreements (SLAs) and ITIL best practices.
- Escalate complex technical issues to second-line support with detailed troubleshooting, root cause analysis, and accurate incident documentation.

CATALOGUE ASSISTANT

Takealot.com

2017 - 2023

- Maintain product data accuracy and consistency across internal systems and platforms
- Identify and resolve data-related issues to ensure reliable system performance
- Perform quality checks on product information, identifying discrepancies and implementing corrections

IT NETWORK INTERN

Western Cape Government

Jan 2016 - Dec 2016

- Assisted with setup and maintenance of routers, switches, and firewalls.
- Monitored network performance and identified connectivity issues.
